MIXED

WHY SPORTS?

Historically, Sports has proven to be a uniting force for Cameroonians despite the socio-cultural differences. Sports and recreational activities remain one of the most innovative ways to bring people together to dialogue, share ideas and work together. The choice of Bafoussam was informed by the need to respond to the growing influx of young men women and children into the western region of the country who have been forcefully displaced by armed conflict in the North West and South West regions. There is thus the critical need to create a safe and innovative space for these diverse communities to dialogue and find common ground toward sustaining a safe, secure and prosperous community.

To respond to these challenges, Local Youth Corner Cameroon and her partners have adopted sports and recreational activities as key tools to provide safe spaces for dialogue, peer-to-peer learning and critical thinking, youth leadership, social cohesion, influence attitude and life skills. This Jamboree will promote civic, moral and entrepreneurial rearmament of young people which will ensure resilience and wellbeing. Physical and mental exercise is a healing process that affects attitude, self-esteem, skills and behaviours. This healing process helps to prevent high-risk social behaviours, meets the existing demands and helps to achieve the physical, mental and social well-being of the entire community.
